### LITERARY NOTES.

J. B. Lippincott & Co. have assumed the American agency of "The Contemporary Review," one of the ablest and best sustained of the English monthly Anthony Trollope, a periodical devoted to lighter reading, and well adapted to interest magazine readers in this country.

BRAINERD INSTITUTE, Cranberry, N. J.—

BRAINERD INSTITUTE, Cranberry, N. J.—

Sheldon & Co. will publish very soon a Ninth Series of Spargeon's Sermons. This volume thas been prepared with great care, the author having seen prepared with great care, the anthor moving selected and revised all the sermons, and also prepared a very interesting introduction to the volume. The same firm are also about to publish Dr. Comant's great work, "The Hook of Proverbs," re-translated, with copious motes. There will be two editions of this work, one for the use of scholars, and one to meet the popular demand. Dr. Comant has devoted to the preparation of this work means to use the property of the work means to use the property of the work means the property of the work means to use the property of the work means to use the preparation of this work means to use the property of the work means to use the property of the work means the property of the work means to use the property of the work means to use the property of the work means the work of the work

Messrs. Henry S. King & Co. will shortly publish new editions of the Life and Works of the late Rev. Frederick W. Bobertson, of Brighton.

The first part, entitled "The Sailing of the Swallow," of Mr. Swinburne's new poem, "Tristram and Isenit," is finished. The prelude of this poem appeared a few weeks ago in an annual called " Pleasure."

Messrs. Adam & Charles Black have purchased the copyright of the late Lord Brougham's works and propose publishing a reissue of them in monthly volumes.

The petition in behalf of the French Communist and savant. Elisée Reclus, signed by the English men of science, Messrs. Lyell, Prestwich, and Henry Weedward, all distinguished geologists, the last of whom translated M. Reclus's book on "The Earth"—by Dr. Carpenter, Professor Owen, and many other men of the highest scientific eminence, has been presented to the Commission of Pardons, and hopes are entertained of a favorable issue.

### New Publications.

THE TRIBUNE ALMANAC

The events of Wall-st. during the past week have not been especially significant. For the greater por tion of the time the markets have been noted for respecttion of the time the markets have been noted for respectable duliness and stagnation—in many cases one day being but the repetition of its immediate predecessor. The gold market attracted at times considerable attention, and under the influences of lower and unsettled quotations in London and on the Continent, growing out of feverish apprehensions lest the Geneva Conference should not succeed in satisfactorily adjusting the Alabama claims question, the price was worked up from 100½ to 110½. The upward tendency derived support from the expectation of an advance in the rate of discount by the expectation of an advance in the rate of discount by the Bank of England. Stress was also laid on possible complications between the United States and Spain. growing out of efforts for the recognition of belligerent rights in behalf of the Cuban revolutionists. The gold bulls also made use of the large customs receipts at this port, the failure of the late bond negotiations in Europe, and tinuity the pet theory that the balance of trade is against us. They made the most of all these considerations, and yet the premium on gold was only moved up even tem-

porarily i of one per cent. This proves most satisfac-torily that the general sentiment of the public favors low gold, and that all the reasons addinced for a higher price are unreal as to their lasting or legitimate effect. It proves that the mass of the people fa for a return to specie payments; and why not? Have we not carried this child's play of treating an irredeemable piece of paper as a real dollar about far enough? Who is de-ceived by it? Who does not know that we cannot measceived by it 1 Who does not know that we cannot measure real values by an elastic yard stick, which is of one length to-day and another to-morrow. Is a bond or a house, or any other piece of property which will sell for \$20,000 in gold of any freater real or; intrinsic value because you can to-day obtain \$22,000 in greenbacks for it! Then why not be honest, and not only say that your greenback is worth a dollar, but give a dollar for it when demanded! If the Treasury were to announce to-day that it is prepared to redeem the Treasury notes in gold, it is not at all probable that \$50,000,000 in coin would be called for. What your Treasury or bank note holder wants to know is that his bill represents its face in the coin of the country. For a few days there might be a run for the precious metal, but it would soon subside, and holders of greenbacks than do the holders of gold certificates now Gold would of course be drawn from the Treasury when wanted for actual use, and the gold speculators would have opportunity for turning their attention to some more useful, if not profitable, employment. There were those who, before the meet ing of Congress, looked hopefully to that body for the inauguration of measures in the direction of resumption; but they looked in vain. The majority in Congres will shape their financial legislation with reference to ts effect upon the next Presidential election. And whether they be right or wrong in their opinion, unfor unniely for the cause of specie resumption, they have come to the conclusion that such a measure would not be themseives for the equalization of greenbacks and gold, or wait patiently till after the next Presidential election. The bull speculation in gold to which we have referred was but

short lived; the supports being knocked away, the whole

fabric came to the ground. The bank rate was not ad-

ng the Secretary of the Treasury in his operations

abroad in marketing \$130,000,000 of the new loan last

year give hope that the obstacle hitherto standing in the

way of a successful negotiation of \$600,000,000 on the

Rothschild proposition (making the interest payable

abroad) may also be removed. These later consideration

caused a reaction in the premium to its starting point

and have, doubtless, for the present at least quashed the speculation. In government bonds then there has been

a desire apparent throughout to depress prices by the foreign houses, in order that short lines might be carried Though the investment demand has not been large it ha been sufficient to generally neutralise this effort and prices have therefore made no important variations. The stock speculation has been tame and spiritless and either for a rise or decline the movement has lacked arder. The cliques, while suffering matters to go by de fault, have not apparently been idle, but have devoted the time to drilling their forces, making their reconnots ances, and pushing their skirmfshers into the lines of their opposing forces before giving battle. Like skillful generals they have prepared their armies for a siege and will doubtless set their soldiers at work after am ple provisions are made for another campaign. The known antagonism existing between the clique leaders is accepted by the street as suggestive of a bitter warfare, though the immediate future is, of course, uncertain. If we correctly surmise the short side of the market is under the immediate command of the late built who so dextrously unloaded his stocks about a fortnight ago. The built faction, we understand, is marshaled by what calls itself the Vanderbilt party, the commanding general of which division is now (or lately was) in Washington, looking after the tax on the Central scrip certificates. The peculiar reti-cence of the veteran ex-director in Eric makes it as impossible to fully foreshadow on which side his fortunes hang, as to determine with certainty on the imprison-ment of a flea, although at the moment the insect may directly under your thumb. Under these marches and countermarches of the cliques, the market has been sometimes heavy, sometimes firm, sometimes steady, but siways dull. Yesterday it assumed a more cheering aspect, and the whole list advanced in an increased bush ness, closing strong and retaining the improvement. To day the market has shown continuous strength and activity in certain of the prominent specialties. In the rest of the list for a time there was a slight decline, but under the leadership of Pacific Mail, which has been the speculative card to-day, the whole market recovered, though the advance did not comprehend more than i to i per cent. After the bank statement made its appearince prices went off a fraction, but the market was quickly railed again and closed steady at 4 p. m., at which hour, under the new regime, Saturday dealings close. Eric has been rather heavy than otherwise, owing to the desperate pecuniary straits of the Company, the

mismanagement of the road for the last few years not affording hopeful signs of recuperation. The report ren-

dered inet September made no mention of a floating debt,

in so short a time, and we presume that the reform movement now in progress will thoroughly sift this matter, as well as others equally incomprehensible. The receipts well as others equally incomprehensible. The receipts of the road, if we are rightly informed, will be insufficient to meet the current expenses, and money due on the lst proximo, and a deficit of \$1,500,000 must be provided for in some way, either by the sale of its paper, or its conselidated bonds issued on a mortgage dated Sopt. 1, 1870. This latter process was estopped by the Governing Committee of the Stock Exchange, and the bonds were never placed on the call. They were apparently were never placed on the call. They were apparently issued to provide for \$23,500,000 over-due or then due, of which \$5,000,000 were sterling bonds. Pacific Mail felt the influence of an expected subsidy, and there was very little gossip about other shares. The largest business was in Lake Shore, New-York Central, Ohio & Mississippi, North Westero, Rock Island, Union Pacific and Quicksilver, the latter stock taking a downward turn from 304 to 294, with late recovery. Canton was quite active at 86 to 814. Investments were quiet, but strong. Chicago and Alton selling at 122. Fort Wayne, 971, and Michigan Central at 1184. St. Louis and Iron Mountain was strong

Gold					

Gold has been dull but strong all day at 1091 21091 though in the morning the price for a moment touched 1921. There were no new influences bearing upon the price. The rates paid for having balances carried were 6, 5, 4, 4½, 3, 2, and 3½ per cent, but subsequently gold became in good borrowing demand, and lent flat, while later 1-64 of one per cent was paid for the use of it over until Monday. The Assistant Treasurer paid out \$26,000 in redeemed 1862s, making a itotal of \$24,024,000 since Dec. 1, 1871. The disbursements of January and February interest were \$210,000, making a total of \$14,907-000. The day's business at the Gold Exchange Bank was as follows: Gold cleared, \$47,919,000; gold balances, \$2,832,661; currency balances, \$3,301,902. The following were the quotations:

ated: | Prime bankers' sterling bills on London | 100 m | 10

The money market has been easy throughout, the mon general rate being 6 per cent, though the extreme range was 5 and 7, the closing loans being at the lower rate Prime discounts move on the basis of the following rates

quence of the large decrease in specie, against the small rain in legal tenders. The loss in specie is accounted to by the heavy Customs payments into the Treasury amounting to \$3,632,254, the specie export being only \$14,980, and the disbursements of coin interest on the public debt \$904,944. The banks now hold \$8,290,500 in excess of legal requirements, a decrease of \$955,225. The following table shows the condition of the New-York City banks at the under-mentioned dates :

action to the Pacific mortgages, Centrals selling at 1021 2 102½; Union Pacific ists, 92½; land grants, 82½, and incomes, 81½ #87½. Albany and Susquehanna 2ds brought par, and Illinois Central bonds, 104 #106. Alton and Tarre Hards leaves and 41.7%, and Harnibal and 8t Terre Haute incomes sold at 781, and Hannibal and St. Joseph convertible 8 per cents, 97 2971. The prospects now are that further negotiations will be pushed to place \$600,000,000 new bonds on the Rothschild's proposition, since the late vote in Congress. Should this prove so, a further sharp inquiry is likely to be started up for rail-way mortgages. The bonds of the old established roads are now selling far above par, and under such circumstances would be more difficult to obtain than at present, to say nothing of the smaller interest yield, as quotations advance. The new loans offering are in consequence attracting much attention from capitalists and both foreign as well as domestic investor The St. Joseph and Denver City sinking fund land grant 8 per cent gold bonds are still in active request, as are also the Chesapeake and Ohio gold 5 per cents, which are offered by Messrs. Fisk & Hatch at 94 and accrued interest. Messrs. Tanner & Co. sell the St. Joseph and Denver City bonds at 971 and accrued interest. The following were the bids for railway mortgages at the Board :

The receipts of cotton at all the ports for the past week were 92,688 bales, against 120,813 the previous week

The total receipts since Sept. 1, 1871, are 1,916,479 bales, against 2,352,297 for the corresponding period of the previous year, showing a decrease in the present crop of 435,818 bales. The exports from all ports for the week were 32,929 bales, against 73,528 bales for the same week last year. The total exports for the expired portion of the cotton year are 1,014,110 bales, against 1,402,746 bales for the same time last year. The stock at all the ports is 565,607 bales, against 617,177 for the same date in 1871. The following shows the exports (exclusive of specie) from the port of New-York to foreign ports for the week ending Jan. 30, and since the beginning of the year:

The Philadelphia stock market was firm, to-day

Eric Railroad, 261; Reading Railroad, 57 13-16; and Penn vivania Railroad, 624. Gold closed at 1694. There will be a meeting of the depositors of the Eighth National Bank, at the Sinclair House, corner of Broadway and Eighth-st., at 8 o'clock this evening. It is expected that important business will come before the meeting, and it is desirable that all should be present.

Pennsylvania 6s, third issue, 1084; Philadelphia and

To satisfy the very numerous inquiries for information oncerning the mineral and agricultural resources of that part of Virginia and West Virginia tributary to the Chesapeake and Ohio Railroad, Messrs. Fisk & Hatch have had a third edition of Mr. Howell Fisher's report on the minerals of that region, to which is appended further valuable matter on the subject from other trustworthy sources. Copies of the pamphlet can be had on application to them.

### BANKING AND FINANCIAL. THE 7-90 LOAN.

The popularity of the Northern Pacific 7 30 GOLD BONDS is rapidly on the increase, and large sales are being made at home and abroad. Their popularity is due to the fact that they are

based upon the amplest security, being a First and ONLY mortgage upon the road, and in addition upon over FIFTY MILLION acres of land, susceptible of producing in abundance all the fruits, vegetables, and cereals of the Eastern or Middle States. The Government valuation of this Land Grant is

ONE HUNDRED AND THIRTY MILLION OF DOLLARS, or more than sufficient to pay the entire cost of the The Bonds are issued in the following denomi

\$100 500 1,000 5,000 Registered. \$100 500 1,000 Coupon. 10,000

And are at all times interchangeable at the office of the Company, or through the Fiscal Agents, without Northern Pacific 7-30s, selling at par in currency,

yield the investor 7 3-10 per cent gold interest absolutely for thirty years, free from United States tax. \$1.100 currency invested now in Northern Pacific 7-30s will yield per year in gold \$83 22. Here is a difference in annual income as compared with United States 5-20s, which the Government is calling in, of nearly one-third, besides a difference of 7 to 10 per cent in principal, when both classes of bonds are redeemed. With the same entire confidence with which w

People, we now, after the fullest investigation, recommend these Northern Pacific Railroad bonds to our friends and the general public. All marketable securities received in exchange.

the principal banks and bankers throughout the United States.

The attractive features of these Securities are re cognized in the fact, that, although they have been but a short time on the market, they are nearly all absorbed, and but a small amount are now for sale. They combine a perfect security with a liberal

rate of interest. This interest account is made light for, and easily borne by, the Company through the operation of the Sinking Fund created from sales of the Company's land, which in many cases drawinterest at the rate of ten (10) per cent per annum. The security behind them is ample in every parties. lar, as they constitute a first and only mortgage on a trunk line of railroad which will soon connect the city of St. Joseph, Mo. (an important railway eegter), with the Union Pacific Railroad at Fort Kearney, materially shortening the distance between the Atlantic and Pacific coasts. In addition to the the bonds have a further security in the fact that here is included in the Mortgage the Company's magnificent Lands, amounting to 1,500,000 acres, known to be among the best in the United States The Mortgage indenture prohibits the sale of the Lands at less than Four (4) Dollars per acre, and pay. able to the Trustees under the Mortgage, for the clear and express purpose of retiring these Bonds. The amount thus realized exceeds the entire amount of Bends which can be issued, and leaves the road, property and franchises free,

The Bonds have thirty years to run, with interest at Eight Per Cent, free of tax, payable February and August in each year. Both principal and interest are payable in gold.

The principal in New-York. The interest in either New-York, London, or Frankfort-on-the-Main, at the option of the holder, without notice and in the rold currency of the country in which they are presented They are coupons or registered.

Trustees-Farmers' Loan and Trust Company, The present price of these bonds is 971 and accredinterest in currency, from August 15, 1871. But the are receivable at par and accrued interest mpsys ment for lands sold by the Company. The right reserved to advance the present selling price with

out notice. Maps, circulars, documents, and full information furnished on application.

Though acting as agents for the sale of this loan, on firm buy and sell in their regular business the bonds of the St. Joseph and Denver City Railroad Company, those of the Eastern Division eight per cent (8s), recently placed by us at 97), being now quoted at from 1011 to 1021 and so TANNER & Co., Bankers, No. 11 Wall-st.

Messes. Winslow Lanier & Co.,

No. 27 Pine-st., offer for sale THE FIRST MORTGAGE 7 PER CENT GOLD BONG of the GRAND RAPIDS AND INDIANA RAILROAD CO. Free of Government Tax. Interest payable in No.

236 miles of the road are now completed and ren ning, earning the interest on the whole issue, what is also secured by a Land Grant of Eleven Husden and Sixty Thousand acres of Lumber Land in the State of Michigan, worth from Ten to Twelve Mil lion Dollars. The land is now selling rapidly at an average price of \$15 per acre and the proceed in vested in the repurchase of the Bonds. Less than half a million of the whole issue @

York April and October, Coupons registered.

Eight Millions remains unsold, and the price has ocen advanced to 96 per cent and accrued interest. THE CHICAGO, DANVILLE AND VINCENNES PIRE MORTGAGE BONDS are for only \$18,500 per mile
